

QUARTERLY REPORT ON:

NIGERIA'S 36 STATES AND THE FCT

ECONOMIC, WELLBEING, SECTORAL, AND FISCAL PROFILES

A-TO-Z

A-To-Z provides comprehensive state-by-state information on each of the 36 states and the FCT. By combining descriptive charts with narrative text, subscribers can assess each state individually, in terms of natural and human resources, economic and fiscal activities, and challenges and opportunities. It adopts a state-by-state analytical format to present:

- 1. Endowments** including land area, population, coastlines, boundaries, and borders, allowing subscribers to compare states' relative shares of natural and human resources with regional and national averages.
- 2. Well-being** showing the welfare levels of the citizens, with varied measures of human development.
- 3. Economy** including the size and sectoral composition of gross state products (GSP)- illustrated by a variety of pie charts, bar graphs and analytical tables. Subscribers can assess states' relative shares in national and sectoral output, including opportunities in agriculture, oil and gas, solid minerals, utilities, manufacturing and services.
- 4. Budget** of each state, showing the sizes and composition of each state's revenue and expenditures, as well as the deficits and debt profiles of each state. Fiscal Strengths: Central Allocations, Internal Revenue, and Value Added Tax. Expenditure: Recurrent vs. Capital. Deficits and Debt.

For Whom

The report provides valuable clues for private business decisions, government policy interventions, and evaluation of economic prospects of sectors and states. It is well-suited for all decision-makers, investors, analysts and planners who must optimize their activities across sectors and states. It provides useful clues for:

- Investors planning ventures in the country, states/regions but unsure where to go;
- Business executives in their quests for inputs, production sites, and sales outlets;
- Government officials seeking levers they can pull to hit desired targets;
- Development partners looking for the weakest links to strengthen.

ABOUT ECONOMIC ASSOCIATES

Vision: The vision of Economic Associates is to provide clients with the economic information required to spot new opportunities and risks in the Nigerian economic and financial environment, given the realities of the international economic situation, and the economic policy directions of the government.

Target Clients: Our products and services are targeted at decision-makers interested in creating or preserving economic value in Nigeria: typically CEOs, EDs, strategists, and analysts in manufacturing, trading, banking, investment, stock-broking, state and federal government, donors, and diplomats.

What We Do: We analyse, interpret and contextualize new economic developments, to enable our clients plan responses to opportunities and risks imminent at sectoral, state, regional, national or global levels.

CONFERENCES AND BRIEFINGS

We hold quarterly one-day conferences on the Nigerian economy targeted at busy senior executives. Each conference provides a summary of the key drivers of the global, national and states' economic and financial outlook. Conference contents are also available for in-house presentations.
