Economic Associates (EA) will host a one-day conference on **Nigeria's Economic Outlook** on **Wednesday, 17 July 2019** at **Radisson Blu Hotel and Anchorage**, Ozumba Mbadiwe Avenue, Victoria Island, Lagos. EA's conferences provide the forum for top economic decision-makers to gain foresights on impending economic and business opportunities and risks. They also get fresh insights on actions they must take to guarantee desired outcomes in the future.

Conversations at the conference will revolve around:

- i. Global Outlook:** The twin gluts linger on the global scene: Global commodity glut has replaced the old regime of revenue and foreign exchange windfalls with a new regime of shortfalls; just as Global liquidity glut resulting from cash injections by leading central banks creates opportunities to unlock the liquidity required to mitigate the shortfalls. Business and policy insights from unfolding export and capital flow realities in emerging market economies will be discussed.
- ii. Country Outlook:** Growth-GDP growth, sectoral growth; and, Stability- inflation, interest rate, and exchange rates, Liquidity- money, bonds, equity, foreign reserves, and Budgets- Revenue, Spending, Deficits and Debt Realities for FG, States and LGs. Emerging evidence on the implications of the growth-stability-liquidity nexus for the economic, business, and policy outlook will be discussed.
- iii. Headwinds:** Global Commodity Glut, Fiscal and Monetary Policy Responses, Investment Policies.
- iv. Tailwinds:** Global Liquidity Glut, Vast Valuable National Assets, Electoral Impetus—2nd Term Policy Dividends.
